Why You Should Make **Lenox FireSight®** Your High-Temperature Video System!

- A **FireSight** system can reduce pollution by as much as 20%.
- It can also reduce fuel consumption by as much as 2%.
- **FireSight** will speed up boiler light off.
- Save up to \$3,500/ yr in purge gas versus competitor products.
- Thousands of **FireSight** systems are installed worldwide.
- Backed by a two year product warranty.
- The only high temperature video system with quartz lenses that out last the glass lenses used in other systems. And we have the data to prove it!
- An exclusive light volume control for a sharp, clear image under all operating conditions.
- Only 1/2 the cost of other high temperature replacement video cameras.
- Over 200 designs to meet specific requirements.
- Spare parts available for every **FireSight** system ever built.
